

Bluewater News

TERM 1

CHILDCARE

Open from 16 January 2017.

The Bluewater Crèche is a DEECD approved licenced children's services type 1 facility. As such, the centre and the staff must maintain a high standard of care and safety.

Our qualified staff provide quality care and early educational activities for children aged 0 - 6 with an aim to provide a relaxed, friendly and safe environment for all children in their care.

The Crèche boasts a large indoor play space, packed with loads of fun and educational resources to keep children stimulated and engaged.

The secure outdoor play area contains a fully landscaped garden, grassed play area and sandpit full of toys for children to make the most of their outdoor play.

The Bluewater Crèche operating license allows for our staff to care for children up to two hours per day with a maximum of six hours per week per child.

This allows time for parents to focus on getting in a good workout, spending time with siblings as part of swim school or even just relaxing around the facility.

Our Crèche facility is open from 9am - 11.30am Monday to Friday.

All Crèche users must complete an enrolment form and provide copies of their vaccination record.

For more information on childcare services at Bluewater visit our website www.bluewater.org.au or call our customer relations team on 5232 9551.

SWIM SCHOOL TAKING NEW ENROLMENTS NOW!

Swim School Term 1 starts
Monday 30 January

Lessons for ages from 6+ months.

School aged students wanting to join swim school can book a free 15 minute assessment which will determine which level will best match their current skill base.

Prices range from \$12.40 per lesson with paid in full or fortnightly direct debit payment options available.

Ask about our one on one and adult lessons.

Visit www.bluewater.org.au
or call us on 5232 9551

Manager's Memo

Dear members and patrons,

Welcome to 2017! I hope you had a relaxing Christmas & New Year break, feeling refreshed and ready to go for another year.

Some of you I have met in person, and others seen in and around the facility. Thank you to everyone for a warm welcome to Bluewater, I will be doing my best with the Bluewater team to deliver a great customer experience to all.

It has been a hectic three months since stepping in to the role as centre Manager, and we have seen a few more of the valued team move on to other opportunities since I have taken on the role.

James Morgan, Marcus Larcombe and Lucy Vesey from the Bluewater leadership team have all moved on to new exciting opportunities and we wish them all the best in their new roles. Our aim is to launch a recruitment process this month in order to find staff to fill these positions.

The big news for 2017 is that the stadium is on it's way. There are regular updates available on Colac Otway Shire Council's website.

The existing timber floor was pulled up just prior to Christmas, and will be offered to community groups which have a purpose for re-using the product. If you are a part of a community group and would like more information on how to access the timber for re-use, please visit <http://www.colacotway.vic.gov.au/Works-Projects/Bluewater-stadium-completion-project>

Submissions for the use of the flooring are due by 31 January 2017.

The replacement engineered floor has been ordered and we anticipate it will arrive by late January, installation of the new floor will start as soon as practicable and it is estimated to take about six weeks to complete.

Term one is fast approaching, which means Swim School is getting ready to kick off again for another year, don't forget to re-enrol for those who have been a part of the program previously. If you are looking at swim school for the first time or know of someone that is looking, and not sure where to start, we offer free assessments where our friendly staff will complete a brief assessment of ability and help guide you in the right direction of the most suitable class levels and available days and times.

I'm looking forward to being a part of the Bluewater journey with you all.

Regards,

Simon Coverdale

Manager - Bluewater Leisure Centre

Did you know???

- It is a condition of entry that all patrons scan into the access control points to the pool and gymnasium. Terms and conditions of entry can be located at the entry to both the gymnasium and aquatics areas.

Members are to scan in their membership card and casual patrons are to scan the barcode provided to them at the time of purchase. If you experience any problems with access control, please see customer service for assistance.

- Aerosol deodorants can cause allergic skin reactions, asthma and breathing difficulties in predisposed individuals. Please heed the posters and wait until you've left the pool hall before using aerosol deodorants. We have previously had people suffer significant asthma attacks from exposure to chemicals from aerosols sprayed in the aquatic area.
