AQUATIC GROUP FITNESS

Aqua Moves

A high-energy class designed to offer a variety of cardiovascular and muscular endurance moves set to motivating music. Designed to maintain heart health, dynamic stability and general agility.

Aqua Balance

This aquatic rehabilitation program promotes joint mobility, improves muscular imbalances and aids general relaxation. Great for anyone carrying an injury or physical limitations.

Walking Water Polo

A non-contact, low impact take on water polo, where players walk instead of swim to move about the pool. Designed to optimise social as well as physical activity for Over 50's who might be intimidated by the pace, physicality and difficulty of traditional water polo.

Aqua Play Group

Combines water familiarisation with social interaction at a compatible venue and time. Parents are in the water with their babies (aged 3-6 months), while a qualified AUSTSWIM teacher guides the group through holds, floating, pre-conditioning, submersion and water safety.

Junior Squad

Training sessions that develop the swimming technique of novice and junior swimmers. This is generally defined as swimmers 12-years and under who are still acquiring the skills needed for club and competitive swimming, or those who prefer to a less rigorous program than club swimming.
